AUTOMOTIVE/RESTORATION CLUB OF SCW

## **Zane is back in Arizona! A story of a mother's determination and a little help from ARC "friends"**

**Read Zane's story on page 7 - 8**

Rusty Nuts is the Monthly Newsletter of the Automotive/Restoration Club of Sun City West, AZ

## DECEMBER 2020 DEUCE COUPE CORNER BY TOM JONES, PRESIDENT

2020 has not turned out as we planned this year. Fortunately, we were able to hold our February car show/swap meet just before the Covid-19 virus hit us in March. Who would have thought that we would not have monthly general meetings and have our 2021 Car Show cancelled? Wearing face masks has become the normal attire for the day when going outside our homes. The ARC shop has been able to function since June and continues to be available to members Monday through Friday. Thank you to those members who have volunteered to monitor over the past months and kept the shop open. Many projects have been worked on and some completed, even under the current situations of staying healthy while being with others.

A special THANK YOU to the members who have stepped up and volunteered to be officers, managers, monitors, safety coordinators and leaders in our club. I will certainly support Dean Lewellen, our new President, and his team. I will still be in the shop and volunteer. DO I SMELL DONUTS? If you are a long time member, thank you for your time, talents and treasures. If you are new to ARC, please consider helping pay down our debt on our state-of-the-art shop. After our building debt has been paid, the club can do more charity work with youth and local residents.

Suzanne (AKA Sparky) and I want to encourage everyone to stay safe. We are very thankful for the community in which we live, ARC and all our friends and neighbors. Keep Christ in Christmas and be a blessing to one another. We are looking forward to new and better adventures in 2021.

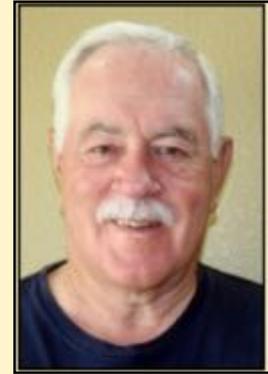

Blessed to be a blessing;  
Tom & Suzanne Jones

The words thank you don't seem to be enough!

## Founder's Focus A Column by Herb Clark

### Thank You Tom & Suzanne Jones!

For the last nine years Tom & Suzanne Jones have dedicated countless hours and days to the success of ARC. Without them, I can say we would not be the premier club we have grown to be. In 2011 when

ARC was forming, Suzanne and her father, John Chaney, came to our first organizational meeting at Beardsley Park. This small group was the start of our restoration club. Nine years later we all owe Tom and Suzanne for their unbelievable contribution. Although Tom was not at this 1st meeting (he was still working), he soon became a major force in the direction of the club. Suzanne's role was pretty much behind the scenes, but no less important!

When ARC was forming we had no place to meet, work on cars, or do anything. Suzanne went with me to several meetings with the SCW General Manager and was so helpful in being a great administrator and Treasurer. Still today, she is Tom's rock that holds things together. Behind every great man is a great woman!

Tom was always a supporter. After the untimely passing of John Chaney, Tom filled the gap with hours of work making sure we were on the right track! When the approval came for ARC to be a club in SCW we didn't have any funds, or a place to meet. I declared we would raise the money and build our own building. The first family to step up was the Jones/Chaney Family. They made a sizable donation which enabled me to ask the Rec Center for a loan to build the building. The REC Center said yes, and many more members stepped up and made large and small donations. ALL OF THEM WERE IMPORTANT! In 2016 we cut the ribbon on our beautiful building, the John S. Chaney Restoration Center. This was the first building in SCW built by a club! It was made possible by many, but the ball started rolling with the donation of Tom & Suzanne and the Chaney Family!

Tom later became President, and has served several years in that capacity with Suzanne quietly working very hard in the background. We cannot thank them enough for their service to the club and the community! I can safely say we owe our success to them! Thank you!

**Thank you Tom and Suzanne Jones!  
We truly appreciate you both!**

I would like to ask some of the newer members to make a contribution to the building fund. We have made a BIG dent in our loan, but with the addition of the new paint room, we need funds. Once we have the building paid for, we can do even more for our community. We became a 501(c)(3) charitable organization because of the labor of Suzanne. Our club goal is to be the leader in training/education and supporting other charitable groups in and around our community. We have done a good job, but with the building paid off we can do a lot more! Please contribute...since we had to cancel our Car Show (biggest fundraiser), we need your contributions more than ever!

# Remembering The Good Times with Suzanne and Tom Jones Thank you for all of your hard work from ARC members

**Tuesday**  
**December 15, 2020**  
**Breakfast - 8:00 am**  
**Tivoli Gardens**

**Menu Selection:**

Each meal includes: Ice Tea or Soda or Coffee (no substitutions)

- A.) 2 Eggs, 2 Bacon or Sausages OR 1 of each, Toast or Muffin AND Hash Browns or Home Fries (with onion or without)
- B.) 2 Eggs, 2 Bacon or Sausages OR 1 of each AND 2 Pancakes
- C.) 2 Eggs, 2 Bacon or Sausages OR 1 of each AND 2 pieces of French Toast
- D.) 2 Eggs, 2 Bacon or Sausages OR 1 of each AND 1/2 of a Belgian Waffle
- E.) Eggs Benedict: choice of Canadian Bacon, regular Bacon, shaved Turkey, shaved Ham, or Sausage Patty on top of an English Muffin with 2 poached eggs AND Hash Browns or Home Fries (with or without Onions)

**50 Tickets - \$15/ea.**

**Purchase between November 1<sup>st</sup> & December 10<sup>th</sup>**

**Purchase breakfast tickets at ARC**

**You can select your meal choice at the restaurant**

A touching holiday story for ARC members  
by Ed Zacko and Michelle Childress

Good news everyone! Zane Childress is back in Arizona, and feeling GREAT! Zane came through all of his surgeries with flying colors and was pronounced well enough to travel so he and his mother Michelle decided to come West and participate in the “Dino’s All Chevy Git Down” last weekend.

All veteran ARC members know Zane but for those of you who are new to ARC we will give you a recap. When Zane was six years old, his father gave him an old Chevy pick up truck which, starting at a young age, he was able to drive around his uncle’s acreage in New River.

In 2012, Zane was diagnosed with an MPNST and his battle with cancer began. In 2014 the MPNST had metastasized to his brain and after 2 brain surgeries, he and Michelle flew to Seattle where he underwent several months of Proton Therapy on his brain. During his inpatient stay for chemo treatment he was approached by the Make A Wish Foundation.

Of all the things a kid could wish for Zane asked for the restoration of his beloved pick up. Alas, for all sorts of legal reasons, motor vehicles were not on the menu and it dealt Zane a devastating blow.

As Michelle tells it, “this is when God stepped in!” Someone at Make a Wish overheard the conversation and said, “we may not be able to do it but I think I know *someone who knows someone* that might make this happen!” This is where ARC comes in.

ARC was in its infancy during this time. We were all meeting at one of the out door Ramadas of Beardsley Park and were merely “a small group of dreamers.” We had the required minimum of 75 members to open a club but had no assets, no equipment and no building, just a charter for the club to be truly an official club and a dream. Did I say no assets? Not true! We actually had several assets that, while not tangible, would prove crucial to the future success not only of Zane’s project but would in turn, set the tone for the future of the club: namely, knowledge, connections, drive and “an attitude to get the job done!”

The Make A Wish folks presented Zane’s case to ARC and the answer was then, as it would always become, “sure, we can do something!” Knowledge was shared, connections pursued and little by little vendors contributed time, materials, parts and services to bring this project to fruition. All, by the way, without Zane’s knowledge.

Upon completion of the truck, Barrett Jackson had partnered with Make A Wish for the presentation of Zane’s truck. The reveal was made under the guise of inviting Zane to attend the Barrett Jackson auction which included Zane’s personal tour of the auction given by Craig Jackson himself. The tour ended at the auction room where everyone involved with the restoration was standing in a line on stage. When Zane was wheeled into the room he saw, on stage, a line of ARC members, family, friends and others from the community who made Zane’s wish a reality. This was a complete surprise to Zane, who believed that he was at the auction solely for the tour with Mr. Jackson. The line opened like a gate to reveal Zane’s beloved, immaculately restored Chevy, there was not a dry eye in the house! Zane cried in disbelief from seeing his spectacular wish come true.

Zane’s truck restoration became the first real project for ARC and served as the catalyst that truly solidified the club as a “community outreach organization” and through this, allowed us to be registered as a 501(c)(3) organization.

Zane is now celebrating 6 years of being cancer free! Unfortunately another rare complication of his genetic condition presented itself. Between the ages of 16 to 20 years old, Zane had a rapid onset of disfiguring scoliosis /kyphosis ( severe curvature of the spine), causing debilitating pain 24/7.

Zane needed serious spinal surgery and the doctor best qualified to perform it was at Johns Hopkins in Baltimore MD. Sadly, Michelle decided to sell the house in AZ and take Zane to MD for the surgery. Barrett Jackson offered to store Zane’s truck for him free of charge until he was well enough to come for it. In MD, after months of scans and tests they were informed that the scoliosis was so severe that the operation could not be done safely without risk of permanent paralysis. It was another crushing blow.

While in Baltimore, Michelle continued to research and located Dr Lenke at Columbia University in NYC whom doctors at Johns Hopkins agreed was the only hope to save Zane’s spine. At this time last year (which included spending Thanksgiving in the hospital), Zane had the ten hour long surgery to bring him relief. The operation was a success.

Today Zane is now able to travel and after a separation of one and a half years, is finally reunited with his beloved truck. He is not 100% (cannot swing a golf club) but is doing fantastic and is “feeling great!”

When asked about her feelings through all of these events, Michelle says that throughout this journey, the only cards and well wishes they have received came from ARC and its members. Their prayers, cards and gifts have given her the strength she has needed to get through. Knowing that Zane has 300+ grandparents (Zane’s birth grandparents have all passed) pulling for him makes her forever grateful.

“I have learned the value of patience and to trust in God’s timing!”

Zane is now twenty two and as he sat in his truck in Anna’s Court Yard, I asked the same question of him. He looked around the court yard and then down at the truck and said quietly, **“Things could always be worse!”**

Zane’s truck restoration project is a tribute to Zane and to all of our club members, friends and family who have been diagnosed with cancer and are battling the disease..There Is Hope!

## The Lauren Matley Paint Booth has a new manager

Bob Janis has agreed to take over the Manager's position and Lee Schwartz will assume the Assistant Paint Booth Manager's position. Bob will be in charge of scheduling and training. Please direct your questions to him regarding these items.

ARC gives a big thank you to **Lee Schwartz**, for organizing the formation of the Paint Shop and running it for many years.

Bob's Scout getting a fresh coat of paint  
during his long restoation

## The Lauren Matley Paint Booth Dedicated December 1, 2018 (read more about Lauren on Page 11)

Herb Clark, Tom Jones and Lauren

Lauren Matley (#16) and wife Marion

“Finally paint is complete! Now, on to the interior and rag top. Any bets on how many years that may take?” says Gary Jones who used the paint booth for his Hot Rod

## MY INTRODUCTION TO OLD CARS

By Lauren Matley

I was 14 years old in 1946 when our family moved from Reno, NV to Berkeley, CA. My father was a traveling salesman for an automotive parts store in Reno and had accepted a better job offer in California.

I was the 3rd of 4 boys. My second oldest brother, Russell, was an old model T owner since junior high school. He was nuts about old cars and a walking dictionary of automotive history. Russell was a musician in the 6th Army Piper's band stationed across the bay from Berkeley at the San Francisco Persidio. He came home on the weekends. As an aspiring young mechanic, Russell found my willing ears listening to his wondrous tales about the unique cars of the early 20th century.

As my interest grew, Russell challenged me to seek out any old cars I could locate in the ritzier section of the Berkeley hills. Peeping in garages, in alleys behind the stately homes of the upper class residents of the area, and any old cars abandoned around town. He promised me we would visit these automotive treasures together on the weekends he was home. His offer prompted me to do just that. Find any old crate of a car and report to him on his return home on Friday.

I learned a lot. The old 1919 Franklin I found abandoned on the street, a 1930 Packard Phaeton along side of an auto repair shop, a 1935 Packard sedan in a driveway just up the street, and a backyard full of mid-30's Fords. My time after school was filled with jaunts all over Berkeley. Russell would mesmerize me as we looked over these treasures, showing me the differences of every make and model I had discovered. He astounded me with his knowledge of the unusual and different mechanical features of these cars. Well, I was hooked from that time on!

At age 22, I bought my first old car. It was a 1926 Buick Sport Coupe with a golf bag door and a shift pattern that shifted opposite of the standard transmissions of the era. Of course, who found it for me? Russell. My next car was a 1927 Model T Ford 1-1/2 ton delivery van I purchased from the Oakland Towel Co. It was so big, I had to park it next to the garage. My kids and all the neighbor's kids spent

many a sunny afternoon tooling around the tract where we lived. Then it was a 1924 Model T roadster pick-up, a 1950 Mercury station wagon, a 1941 Buick sedan, etc., etc., etc.

My first classic cars were a pair of Rolls-Royce Saloons. I was tipped-off by a friend that the local bank had repossessed a 1935 RR Hooper Saloon and a 1937 Thrupp and Mayberly Saloon. I went to the city garage where the bank had them stored and marveled at these classic behemoths. The bank was auctioning them off the following week. My friend who knew the banker handling the auction kept me briefed on the auction progress. A week or so later, my friend said the bank had received only one bid for the cars for \$3000. The banker said to my friend that the bank would likely let them go, if a bid of \$3300.00 was received.

O.K. get this. I knew it was a bargain. But how could a working stiff like me with 6 kids come-up with enough cash to bid on the RR's? I had located a potential buyer for one of the RR's and if I could pull off this deal, I could end-up with a Rolls at no cost to me. Hmmmm. I went to my bank and asked if I could borrow \$3300.00. "What can you prove for collateral," said my banker? I said a pair of antique Rolls Royce's! O.K., bring us the titles, no hurry. We will advance the money today based on your previous dealings with us.

Those 2 classic Rolls-Royce Germany silver radiators facing the street in my driveway became a community anomaly. My life and old cars were permanently bonded from that time forward. I have spent many months over the last 40 years meticulous restoring many fine automobiles of the 1930's and a few fine 1965 Buick Riviera's in the process. I can trace most all of my friends back to an old car or some car related event in my life. Life is good, especially if you get bugs in your teeth from driving your convertible.

*Editor's note:* Lauren and his wife, Marion, have lived in SCW for 12 years. Lauren is very active with ARC, chairing the Car Show/Swap Meet for the past three years. He is the proud owner of a beautiful 1937 Buick.

**Visit the Sun City West library to see Bob Pratt's collection!**

Bob Pratt displays his collection at the RH Johnson Library in front of one of the two displays he has for some of his collection. The library allowed him to showcase ARC and the collection for the month of August.

The car display at ARC every 60 days is as follows:

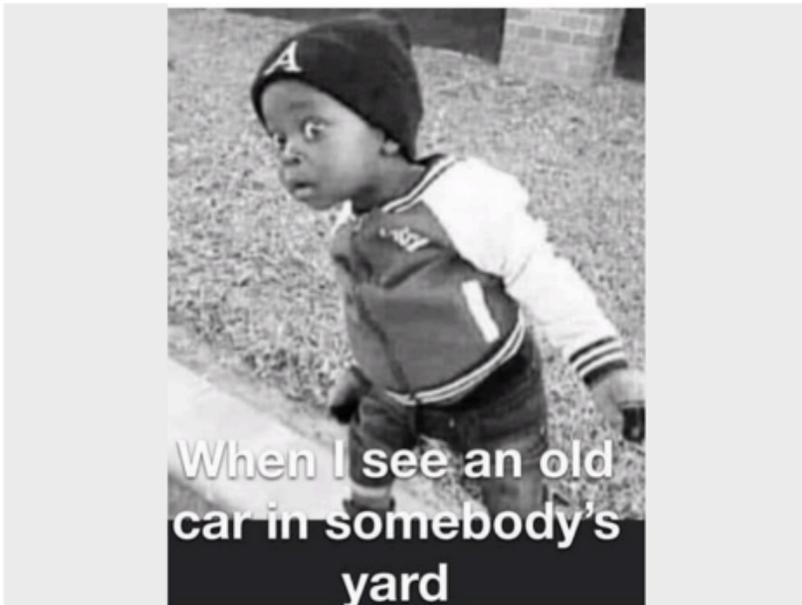

Nov/Dec Chevrolet Display

2021

Jan/Feb Ford Product Display

### Christmas in the Park 2020

Christmas in the Park will look a little different this year. Due to COVID-19, the Rec Center will change the annual holiday celebration for social distancing purposes. Curbside Christmas will be from 9 AM to noon Saturday Dec. 19 in the RH Johnson parking lot, in front of the Social Hall and Administration Office. To participate in Curbside Christmas/Drive-by Santa you must be a Sun City West resident. Tickets are free and will be available beginning Tuesday, Nov. 3, at the RH Johnson Box Office. A map will be provided at that time to show where to enter for the treat bag. At curbside, drivers may pick up crafts, reindeer food and a donut for their grandchildren. Each child will need a ticket to receive an elves treat bag. Santa will be there along with his elves to hand out the elves treat bag. The crafts will be simple, however you will need some glue for the projects. It is very important to keep the Reindeer Food since the letter from Santa will mention it.

Letter from Santa is another event that is happening. Look in the Rec Center News for Letter to Santa and see how to receive a questionnaire

December 10 - December 18th

**9th Annual Rock Around the Block**  
December 5th  
8 AM to 2 PM  
Once again, we will have our **ARC Rock Around the Block** in conjunction with Nancy Perry's **Christmas Car Show**  
It will be held at  
The Chicken Ranch  
See Group works for more information and to sign up!!

John Donilly's "winning Crown Imperial" will be the featured car!

**Plans are being made for another  
MAG Auction**

WeKoPa Casino and resort  
January 22, 2021 8:00 AM  
to  
January 24, 2021 - 6:00 PM

MAG is looking forward to having a live auction and will continue to follow Covid guidelines with the CDC recommendations. They would like the support of the ARC club again this year. Watch Group News for further information

### Welcome to "In For Repairs"!

If you know anyone who needs a little cheering up or who is going through a difficult time, ARC wants to know. We are one big family, and we care about one another. Please contact me at [stevelinda2004@earthlink.net](mailto:stevelinda2004@earthlink.net) or call 623-214-1090 with the information. I will be in contact with the individual by e-mail and also follow up with a card and special note from ARC. Please keep the following individuals in your thoughts and prayers. If you know them personally, I'm sure they would love to hear from you.

We know that many of our members are facing some challenges right now but wish to remain private. We are thinking of all you and wishing you brighter days ahead.

**Lauren Matley (# 16)** - Sad to report that Lauren is in hospice under palliative care. We keep you in our thoughts and prayers, Lauren.

**Reita Dorssom (# 607)** - Reita is going through some health issues. Thinking of you and wishing you sunny days ahead, Rieta

# Banner Health.

COVID-19 in Arizona is spreading at its fastest rate since June, which is why it is so important that we continue to do the things that have been proven to reduce the spread of the virus, like wearing a mask and putting distance between yourself and others.

Here's what we know:

- This week, the United States reached over 100,000 confirmed COVID-19 cases in a single day. That is a record high since the start of the pandemic.
- This past month in Arizona, we have seen gradual increases in daily case counts, hospitalizations, ICU beds in use and ventilators in use.
- Arizona's positivity rate is 7%. This means that of those who tested for COVID-19, about 7% are positive. Health experts recommend that communities maintain a positivity rate below 5%.
- Arizona is experiencing uncontrolled spread of COVID-19, as are most other states in the country. Arizona's [reproduction rate](#) for the SARS-CoV-2 virus is at 1.20, around the same level as early [reproduction rate](#). [reproduction rate](#) means the virus is spreading at about the same rate it was in early June, and at a faster rate than desired. We want to see a reproduction rate under 1.0.
- Banner officials are watching closely modeling from the [University of Washington's Institute for Health Metrics and Evaluation](#), which predicts COVID-19 deaths in Arizona will rise above 9,100 by February 1 with current conditions in place. If everyone in our state masks up, that number is projected to decrease by more than 1,000.

We can flatten Arizona's curve—together. By wearing a mask, you are doing your part to save the lives of more than 1,000 Arizonans and prevent thousands of hospitalizations due to COVID-19.

I would also urge you to consider alternative ways to celebrate the holidays this year. Congregating in large groups and close contact with others outside of your immediate household put you and those around you at risk. Please consider our recommendations for [holiday travel](#) and how to [celebrate safely](#) this holiday season.

I know that we are asking a lot of you. Wearing a mask can be uncomfortable and tiresome. And, if you had told me earlier this year that I would not be spending Thanksgiving with my extended family and friends, I would not have believed you. Gathering with friends and family brings me much joy.

That said, keeping our loved ones safe is the best gift that we can give one another for the holidays. Make these sacrifices for your family and friends this year so that you can preserve many holiday celebrations in the years to come.

Please continue to:

- Wear a mask whenever you are within 6 feet of others
- Put at least 6 feet of distance between you and others
- [Avoid gatherings](#) of 10 or more people
- Wash your hands frequently
- Frequently wipe down surfaces
- [Stay home if you're ill](#), except to receive medical care

If you haven't already, I also encourage you to [get your flu shot](#) now when respiratory illnesses are more prevalent. It's not too late!

Thank you for entrusting us with your care and remember you can make a difference.

Dr. Marjorie Bessel  
Chief Clinical Officer  
Banner Health

**My mask protects you & your mask protects me  
Remember: masks covering  
the entire nose and mouth are required at  
ALL TIMES in ALL Rec Center Buildings**

### ARC Angels

The ARC Angels are a group of ARC members, led by Randy Robinson and Dan Kuhl, who quietly go around helping SCW residents who are in need. They don't ask or look for recognition or praise. Occasionally, someone who has been helped, lets us know. Thank you to all of the ARC Angels for your continued service to the SCW community.

## For Sale 1929 Model "A" Pickup

Restored, engine rebuilt, wheels powder-coated, electronic ignition, recent tires, new bed, etched wind wings, less than 500 miles since restoration
